

I & my family signed up to be a part of the Indiana no-call list. We are satisfied with its results. We do not want it changed as will happen if the proposal by the Consumer Bankers Association (CBA) is adopted. If we want or need to contact any business entity, we are perfectly capable of initiating such contact. If they, CBA members or others have something new to present, let them present it in writing. If they have my phone #, they have my address. Thank You.
